MEBETOYS
DIE-CAST METAL TOYS

Illustrated within this catalog, you will find models specifically developed for the collector; a person, who, for many years, has been neglected. Mebetoys, with its superb craftsmanship and exquisite detailing presents these exact scale cars to the most discriminating collector. These models not only signify the sophisticated advancement of products by Mebetoys, but also show the continuing concern at every level in the advancement of technological processes which will guarantee you, the customer, the finest, most highly-detailed models available in the world today. We have conceived this catalog as an aid in your choice of the many replicas presented on the following pages.

All replicas are metal die-casts with realistic rubber tires and plastic windows and interiors. All are completely assembled and painted.

We feel that you will find our products to your complete satisfaction.
